***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the prior art of record does not anticipate, teach or suggest a method for forming a floating gate memory array substantially as claimed, wherein the method comprises: forming a conformal barrier layer/etch stop layer/dielectric material over the transistor gates, source regions, and drain regions of the memory array; forming a planarized insulation material over the conformal layer; performing a via etch through the planarized insulation material to completely clear the planarized insulation material between the gates, thereby exposing the conformal layer; clearing a horizontal component of the conformal layer covering the source/drain regions; and forming rows of source line contacts and individual drain contacts to fill the vias between the gates and about a vertical component of the conformal layer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Toniae M. Thomas whose telephone number is (571) 272-1846. The examiner can normally be reached on Monday through Friday from 8:30 a.m. to 5:30 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Zandra Smith can be reached on (571) 272-2429. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
